# St. Paul Lutheran School is a 'Hidden Gem' in Royal Oak

Where can you find a school that has strong academics with the small class sizes needed for personal attention from the teacher; a computer lab, music program and athletics plus a caring Christian, family environment?

Right in downtown Royal Oak at St. Paul Lutheran School.

For 90 years, the mission of St. Paul Lutheran School has been to equip children for a life of service with a foundation of academic, physical, spiritual and social maturity centered around Christ Jesus.

St. Paul Lutheran offers a growing Preschool program for three- and four-year-olds plus Kindergarten through Eighth grade. The experienced staff of state-certified teachers helps students learn in an environment that challenges while it encourages and supports the children and parents.

The low student-to-teacher ratio means students receive special attention in an environment that is designed to provide a quality education with high expectations for learning.

Students of St. Paul School learn the necessary skills, critical thinking, and study habits to live competently and creatively in a rapidly changing society. The curriculum meets the requirements of the state of Michigan and includes language arts, social studies, science, mathematics, religion, fine arts and physical education. The school environment and support allows students to reach their full potential. In fact, when St. Paul students go on to high school, they are often among the highest achieving students in their grades. They perform well academically while also demonstrating a social responsibility to the community and world through Christian service to others.

The preschool for 3- and 4-year-olds is state licensed and is designed to concentrate on the whole child. It encourages learning in all areas including social, emotional, physical, language, cognitive skills and spiritual. The program recognizes that learning should involve all the senses: tasting, touching, smelling, listening and seeing.

The families of St. Paul support the many activities the students undertake including choir and band, boys and girls athletics and many opportunities for community service.

With many local public schools being combined or closed, St. Paul Lutheran School is an excellent option for many parents. The school is conveniently located one block east of Main Street on

The school environment and support allows students to reach their full potential.

Williams between Fifth and Sixth streets. While St. Paul may have been a "hidden gem" in Royal Oak for years, it is becoming more visible thanks in part to a new sign on the back of the school facing Main Street at Sixth. Look for it and then stop in and visit. You'll like what you find.

Parents of children entering kindergarten next year are encouraged to attend the Kindergarten Round-Up, Thursday, March 15 at 7 p.m. at St. Paul School. This is a great opportunity to meet the teacher and principal and get all your questions answered.

The community is invited to visit St. Paul Lutheran School during its annual Open House, Sunday, March 11 from 2 to 4 p.m. Classrooms will be decorated to reflect the theme "A Great Place to Grow — A Place for Transforming Lives." You can meet the staff and parents and see why St. Paul has been the school of choice for so many families for 90 years. For more information, call St. Paul Lutheran School at (248) 546-6555 or visit them online at [www.mylutheranschool.org](http://www.mylutheranschool.org).
